<http://www.powerlibrary.org/librarians/e-resources/e-resources-links/>

Old links will no longer work beginning November 1, 2017

TrueFLIX is only available using the new authentication links

Desktop icons should be updated on all computers

- If unable to do so by self, see IT department or whomever is in charge of updating

Use Support form if help is needed

Why should my library switch to the new URL as soon as possible?

Access to Scholastic's TrueFLIX, the new e-resource provided by the Office of Commonwealth Libraries, will only be available to libraries that update to the new URL. Additionally, popular EBSCO e-resources Web News and Newswires are now available directly from the list of e-resources for those that switch to the new URL. Finally, remote access statistics (for public libraries) for some e-resources will only be available by using the new URL.

THE BIG TRUTH!
The First Olympics

The ancient Greeks believed that sports helped prepare men for battle.

For the Greeks, sports had a religious meaning. When important leaders died, sports matches were held. Ancient Greek competitions also celebrated the gods. The Olympic Games honored the ruler of all Greek gods, Zeus. They were first held in the valley of Olympia in 776 B.C.E.

Greek sports included wrestling, foot races, boxing, and racing carts called chariots.

The Rise of Rome

As the years passed, Greece slowly grew weaker. But the neighboring Roman Empire, in Italy, was growing stronger. In 146 B.C.E., Greece finally became part of the Roman Empire. The ancient Romans respected the ancient Greeks' many accomplishments. The Romans even continued to use the Greek language in their writings. Through the ancient Romans, the ideas of the ancient Greeks continued to shape peoples' lives and are still known to us today. ★

Americans choose their leaders just as the ancient Greeks did in Athens.

GETTING AROUND

Home and Browse

The TrueFlix Home screen offers two browse options: a category browse and a thumbnail browse.

The category browse utilizes the two groups of TrueFlix titles on the left and right of the screen: People, Places, and History to the left and Science and Nature to the right. Below these titles are nine and twelve tabs, respectively, which correspond to each of these two groups' categories. For People, Places, and History, the categories are American Indians, Ancient Civilizations, Biographies, The Civil War, Continents, The Thirteen Colonies, U.S. Government, U.S. Regions, and Westward Expansion. For Science and Nature, the categories are Animal Kingdom, Disasters, Earth Science, Ecosystems, Experiments, Extreme Nature, Extreme Science, Health, Human Body, Outer Space, Physical Science, and The Solar System. Clicking on one of the 21 categories accesses a category browse screen from which you can choose among thumbnails for all the TrueFlix units in that category. Clicking on any of these thumbnails brings you directly to the title screen for that unit.

The thumbnail browse utilizes the eight large featured TrueFlix thumbnails that rotate at the center of the Home screen and the carousel of thumbnails that rotates at the bottom center of the screen. At a very early age she knew that she wanted to be an artist and was encouraged by an elderly couple who would give her a chocolate bar for each picture she drew. A local art school offered her a scholarship and she studied there for three years, continuing her training at Leeds College of Art, where she specialized in illustration. Her career in the children's book field began with the highly acclaimed *Rosie's Walk*, a 1968 ALA Notable Book. Since then she has written five novels and created more than twenty-five picture books. She was awarded England's prestigious Kate Greenaway Medal in 1974 for *The Wind Blew*. Pat Hutchins lives with her husband in London, England.'

BookFlix can be an invaluable tool for use in your library's preschool and primary grade programming, adding depth and interactive excitement to group programs for those ages. Arranged in nine broad category groups, the individual programs each feature a popular topic of interest to young children. Use a category group as your general theme for a six- to ten-week program series and then choose one of the topics within that category for your program focus each week. For example, your general theme for the program series could be Animals and Nature.
